Kako smo ajdo kot starodavno rastlino za nove čase spoznavali mi?

Življenje v sodobnem času nas spodbuja, da ohranjamo našo bit, dopolnjujemo svoje znanje, pridobivamo vedno nove izkušnje in vključujemo tradicijo. V okviru vrtčevskih zmožnosti zagotavljamo varno, spoštljivo, iskreno, veselo druženje in sodelovanje otrok na področju spoznavanja in odkrivanja prehrane nekoč, danes in zdravega življenjskega sloga. Raziskovanje na različne načine, prinaša nove, pozitivne, trajne izkušnje vsem udeležencem. Skupno življenje nas povezuje. Skozi projekt iščemo in spoznavamo stvari, ki so pomembne tako v našem vsakdanjem okolju, kot širšem prostoru in ki so bile pomembne nekoč. Izhajamo iz prepričanja, da kulturna in naravna dediščina s svojim bogatim sporočilom otroke nagovarjata in jim predstavljata neponovljivo izkušnjo.
